Sfp-10g-sr cisco data sheet.

Cisco SFP-10G-ER module The Cisco 10GBase-ER module supports a 40-kilometer to 40 kilometers link length standard (SMF, G.652). Table 5 details the optical specifications of the Cisco SFP-10G-ZR modules. SFP-10G-ER-S does not support FCOE. Requires 5dB attenuator if the link distance is between 25km and 45km. Cisco SFP-10G-BXD-1 and SFP-10G-BXU-1 for 10km (bidirectional bidirectional applications) Cisco SFP-10G-BXD-1 and SFP-10G-BXU-1 SFPs operate in a single SMF chain Pattern. Cisco offers passive twinax cables with length of 1, 1.5, 2, 2.5, 3, 4 and 5 meters and active twinax cables with length of 7 and 10 meters. In more than 100 countries, our flexible payment solutions can help you acquire hardware, software, services and supplementary third-party equipment in granting and predictable payments. B - At 15 km links are supported as links designed provided that the loss of channel insertion
